"Environmental and Social characteristics

The Sub-Fund promotes environmental and/or social characteristics, as described in Article 8 of the SFDR, by defining for the main part of the investments the materiality of environmental, social and governance (ESG) risks and opportunities. This information is integrated by the Sub-Fund in its investment process based on the Management Company's ESG Integration approach. ESG Integration, as described by the Management Company in the "NN IP Responsible Investment Policy" for its investments, stipulates that E, S and G factors must be demonstrably and consistently assessed in the investment process, and that they are documented in a systematic way.

The Sub-Fund applies the Management Company's norms-based responsible investment criteria that may lead to exclusions as detailed in Part I: "Essential Information regarding the Company", Chapter II: "Information on investments". Such exclusions are a binding element for the investment process.

There is no relation between the environmental and social characteristics promoted by the Sub-Fund and its Index. The Sub-Fund's security selection process includes the integration of ESG factors that may lead to restrictions on issuers that are part of the Index investment universe. Therefore, the investments of the Sub-Fund may differ from the investments of the Index.
